SUMMARY

Passionate about data security, cloud infrastructures, and artificial intelligence, I am a Croatian 5th-year computer engineering student specializing in cybersecurity. My goal is to contribute to innovative projects by leveraging my technical and theoretical skills in Azure cloud security, data protection, and AI.

SKILLS

- Kali Linux
- Metasploit
- BurpSuite
- Nmap
- Wireshark
- Azure Active Directory
- Azure Firewall
- Microsoft Defender for Cloud
- Networking
- Prompt Engineering
- GitHub/Gitlab/Git
- Azure Sentinel & Azure DDoS Protection
- Azure Database Security
- Database Administration
- Artificial intelligence

PROGRAMMING LANGUAGES

- HTML
- CSS
- JavaScript
- C
- Node.js / React
- SQL & NoSQL
- Python
- Java

LANGUAGES

- French
- English
- Arabic

EDUCATION

Engineering Degree in Computer Science – Cybersecurity Specialization 2021 - Present

5th-year student in computer and digital engineering at the International University of Rabat, specializing in cybersecurity.

High School Diploma 2020 - 2021

Obtained a baccalaureate in Physical Sciences.

PROFESSIONAL EXPERIENCE

Engineer Assistant Internship – NTT DATA June 2025 – September 2025

- Web Application Penetration Testing: Conducted end-to-end penetration tests on a real web application following OWASP methodology, identifying critical vulnerabilities such as SQL Injection, Cross-Site Scripting (XSS), insecure direct object references, and misconfigurations.
- Server & Infrastructure Security: Performed vulnerability assessments on application servers, analyzed firewall configurations, and implemented security hardening measures to reduce attack exposure.
- Threat Reconnaissance & External Attack Surface Mapping: Applied advanced reconnaissance techniques to map the target's digital footprint, identify potential exposure points, and support vulnerability analysis.
- Exploit Verification & Risk Analysis: Validated identified vulnerabilities through controlled exploitation to assess real-world impact and prioritize remediation.
- Security Documentation & Reporting: Produced detailed security assessment reports, including technical findings, risk ratings, and recommended mitigation strategies aligned with industry standards.

- Collaboration & Knowledge Transfer: Worked closely with development and operations teams to explain vulnerabilities, propose secure coding practices, and assist in remediation efforts.
 - Technologies & Tools: OWASP ZAP, Nikto, SQLMap, Wapiti, Recon-ng, theHarvester, Nmap, Burp Suite, Metasploit, Dirb, Hydra, Netcat, Gobuster, SSLyze, OpenVAS, John the Ripper, Hashcat.

Technician Internship – Alten
June 2024 – August 2024

- Management and optimization of CI/CD pipelines: Automation of builds, tests, and deployments using GitLab CI for fast and reliable deliveries.
- GitLab Expertise: Advanced configuration of runners, branch management, and CI/CD process integration.
- Static code analysis: Implementation of Checkstyle and SonarQube to ensure code quality and detect vulnerabilities.
- Documentation and training: Writing guides and delivering training sessions to facilitate the adoption of CI/CD tools.

Worker Internship – NordTech Solutions
July 2023 – August 2023

- Participation in the company’s projects and web services using the required programming languages.
- Monitoring of the development and deployment processes of software solutions.
- Participation in team meetings and brainstorming sessions.
- Analysis of project management and quality control practices.

Observation Internship – AXA Assurance Morocco
July 2022 – August 2022

- Observation of claim management processes and client interactions.
- Monitoring of underwriting protocols and risk evaluation.
- Observation of sales strategies and customer service in the insurance sector.

Microsoft Certified: Cybersecurity Architect Expert	(in progress ...)	2025 - Present
Microsoft Certified: Azure Security Engineer Associate (AZ-500)	(in progress ...)	2025 - Present
Microsoft Certified: Azure Fundamentals (AZ-900)		2025
PMP: Generative AI Overview for Project Managers		2024
Ethical Hacking Essentials (EHE)		2024
Cisco: Junior Cybersecurity Analyst		2023
Fortinet: Fortinet Certified Fundamentals Cybersecurity		2022
