EDUCATION

- Engineering Degree in Computer Science – Specialization in Cybersecurity (CTI and ABET Accredited Program) **2021 - 2026**
- High School Diploma in Physical Sciences **2020 - 2021**

TECHNICAL SKILLS

Pentesting & Offensive Security : Kali Linux, Burp Suite, Metasploit, Nmap, SQLMap, Wireshark, OSINT, MITRE ATT&CK

Cloud & Azure Security : Azure Active Directory(AD)/Entra ID, Firewall, Sentinel, Defender for Cloud, DDoS Protection, Zero Trust, MFA

Data Protection & Security : ISO 27001, SIEM Integration, Encryption, Access Management(IAM), Compliance Auditing, CVSS

Vulnerability Analysis & AI Automation : Prompt Engineering, Threat Intelligence(CTI), LLM-based Cybersecurity, Network Traffic Analysis

Networks & Infrastructure : Linux/Windows Server, pare-feu (Cisco, Fortinet), Oracle Database, Virtual Machines(Virtualisation ESXI)

Langages & Frameworks : HTML, CSS, JavaScript, C, Node.js, React, SQL, NoSQL, Python, Java, PowerShell

LANGUAGE

- French(Native)
- Arabic(Native)
- English(Advanced)

SOFT SKILLS

- Team Spirit
- Proactivity
- Problem-Solving Mindset

PROFESSIONAL EXPERIENCE

Assistant Engineer Intern – NTT DATA

June 2025 – September 2025

- Performed OWASP web application penetration tests to identify and exploit vulnerabilities (SQLi, XSS, IDOR).
- Audited servers and firewalls to strengthen security and reduce the attack surface.
- Drafted technical reports with risk assessments and CVSS-based recommendations.
- Technologies & Tools: OWASP ZAP, Nikto, SQLMap, Wapiti, Recon-ng, theHarvester, Nmap, Burp Suite, Metasploit, Dirb, Hydra, Netcat, Gobuster, SSLyze, OpenVAS, John the Ripper, Hashcat.

Technician Intern – Alten

June 2024 – August 2024

- Automated builds and deployments via GitLab CI/CD to ensure fast, reliable, and reproducible releases.
- Configured runners and continuous integration pipelines to optimize workflows and build performance.
- Analyzed code quality and security using static analysis tools (Checkstyle, SonarQube).
- Authored technical documentation and supported teams in adopting and maintaining CI/CD tools.

Industrial Intern – NordTech Solutions

July 2023 – August 2023

- Developed and deployed internal web solutions while integrating secure coding practices.
- Collaborated with teams in project meetings and ensured quality control and documentation.

Observation Intern – AXA Insurance Morocco

July 2022 – August 2022

- Observed claims management and customer relations processes.
- Analyzed underwriting processes and business workflows in the insurance sector.

ACADEMIC PROJECTS

SD-WAN – Secure a Hybrid SD-WAN (on-prem and Azure Cloud) with Firewall, IPsec VPN to secure communications

SIEM – Deployed SIEM system, conducted Active Directory penetration tests, and analyzed/remediated incidents.

MITM Attack Simulation – Designed and simulated a man-in-the-middle attack to evaluate and secure network communications.

SDMN (Software-Defined Mobile Network) – Deployed and simulated an SDN-based mobile network using NS-3, Mininet-WiFi, and ONOS.

Azure Cloud – Developed and optimized a multiplayer web quiz game hosted on Azure with resource management.

AI TasteLen – Designed and trained an AI model to recommend culinary preferences.

CERTIFICATIONS

Microsoft Certified: Azure Security Engineer Associate (In progress ...)

2025 - Present

Microsoft Certified: Azure Fundamentals (AZ-900)

2025

PMP: Generative AI Overview for Project Managers

2024

Ec-Council: Ethical Hacking Essentials (EHE)

2024

Cisco: Junior Cybersecurity Analyst

2023

Fortinet: Fortinet Certified Fundamentals Cybersecurity

2022
